

Take the Invasive Species Mapping Challenge!

Join us for a webinar on Wednesday, June 26 from 12:15 to 1:15 PM about jumping worms, tree-of-heaven, and water chestnut—three invasive species that are under-reported in New York State.

- Learn how to identify these invaders and how to enter your findings into the iMapInvasives database.
- Use your knowledge to participate in a statewide competition from June 26 to July 17.
- Compete for prizes and bragging rights!
